

Hi. I'm Chris.

PROPERTY & CASUALTY TREATY BROKER, NEW YORK

ALL ABOUT ME

I graduated from the University of Notre Dame with a BBA in Management. I am a licensed captain and love all things related to the beach and sea. My wife and I love to cook, and you can usually find us trying out new recipes or hole-in-the-wall restaurants around the city. We also love to travel and continue to check countries off our bucket list one passport stamp at a time.

MY ROLE ASPIRATIONS

I am a broker on the P&C treaty team, trying to expand my skillset and learn more about this side of the business. I started out in the facultative department, working on both Property and Casualty. I aspire to continue to grow my knowledge base and understanding of the reinsurance world. I really enjoy being a broker and having the opportunity to work on all aspects of the business and interact with a variety of people.

WHY I CHOSE (RE)INSURANCE

I've always been attracted to a career in business, and upon graduating I researched career options and found that reinsurance best matched my skills and strengths. As a people person, the broker side of the business was a natural fit for me.

WHAT SURPRISED ME MOST?

Prior to working at Guy Carpenter, I had little understanding of the scope and size of the insurance industry. As I gained experience, I learned just how intertwined insurance was within the daily operations of corporate America. Once I realized the impact and value of what we accomplish, the work I did became even more rewarding and fulfilling.
