

Hi, I'm Ric

Broking, San Francisco

MY ROLE AT GUY CARPENTER

I provide Guy Carpenter's clients with bespoke risk transfer solutions and best-in-class service. My role involves various facets – marketing and distribution to data and risk analysis – primarily in the areas of surety and general P&C business.

WHY I CHOSE A CAREER IN (RE)INSURANCE

With my father in the insurance industry, reinsurance was a natural choice. The reinsurance industry is a diverse and varied one, affording many potential career choices across multiple lines of business. It is also a relationship-driven industry. I knew that in this industry I would find something that I would enjoy, employing what I learned from my business degree while building lasting relationships with clients and markets.

WHAT HAS SURPRISED ME THE MOST

While my career is relatively young, I was surprised by how Guy Carpenter provided me with the opportunity to make an impact on the business from day one. I've been able to question the status quo where it made sense. Perhaps most surprising though was the people. Contrary to conventional stereotypes, I found my colleagues, clients, and markets to be full of interesting, outgoing, and friendly people. It has been a pleasant surprise to form both professional and personal relationships with many of them.

MY BACKGROUND

With a business degree from California State University, focusing in Finance and minoring in Management, I joined Guy Carpenter in 2013 and have worked for our Philadelphia, Los Angeles, and San Francisco offices. My aspiration is to continue to learn and develop my reinsurance knowledge, and one day become a respected leader in our organization.
