Hi, I’m Thomas
Treaty Broker, Morristown

MY ROLE AT GUY CARPENTER
As a treaty broker, my role is to advise clients and help execute reinsurance solutions across clients of varying size and lines of business. Beyond the re/insurance transactions, it’s also important as a broker to understand the needs of each client and how we can help them to further succeed in a challenging business environment.

WHY I CHOSE A CAREER IN (RE)INSURANCE
I ultimately chose a career in re/insurance after college, viewing it as something new and exciting that I knew very little about. Re/insurance is an industry where things are always evolving and very rarely are there 2 things done exactly the same. The opportunity to do something outside of my comfort zone was both intriguing and exciting.

WHAT HAS SURPRISED ME THE MOST
One of the most surprising aspects about the re/insurance industry is that you never stop learning. There are always new risks appearing across the market. It is our job as advisors to ensure that we are prepared to discuss how those evolving risks impact our clients and what we can do to help them navigate a constantly changing business environment.

MY BACKGROUND
Prior to joining Guy Carpenter, I’ve been very lucky to have had a wide breadth of experiences including serving in the United States Marine Corps and working with special needs children. All of my prior experiences have added perspective and different insights to my role as a re/insurance broker.
