

Actuarial Analyst

Guy Carpenter & Company, LLC

Guy Carpenter provides highly-specialized risk financing solutions for clients across the globe. Through more than 2,600 professionals in offices located around the world, we design innovative programs that create capital value for our clients and help them manage risk exposures so they can achieve their long-term financial goals.

Position Summary

Actuarial Analysts work in teams with other actuaries, catastrophe modelers and broking professionals to deliver actuarial and financial modeling services to our clients. Each Analyst has the opportunity to develop cutting-edge analyses, strategies and solutions addressing the wide range of risk financing issues facing our clients. Actuarial Analysts participate in **Guy Carpenter's Analyst Development Program**.

Day-to-day responsibilities may include:

- Working with models that examine alternative forms of risk financing
- Interpreting and analyzing client underwriting information to assist brokers in the marketing and evaluation of clients' reinsurance programs
- Using tools to price and evaluate reinsurance structures from an actuarial perspective
- Assisting in responding to client inquiries and concerns; resolving issues promptly

What We Look For

We seek creative and well-rounded self-starters who have both the qualitative and quantitative aptitude to excel in a challenging and highly competitive environment. Actuarial sciences, mathematics or statistics majors are preferred.

Required Qualifications

- Undergraduate degree with a minimum GPA of 3.0 out of 4.0
- Superior analytical, research and problem-solving skills
- Advanced mathematical / financial aptitude
- Strong computer application skills, specifically Excel and Access
- Ability to multi-task and work effectively in a fast-paced team environment
- Keen attention to detail
- Strong oral and written communications skills

Locations
