

## Actuarial Analyst Intern

### Guy Carpenter & Company, LLC

Guy Carpenter provides highly-specialized risk financing solutions for clients across the globe. Through more than 2,600 professionals in offices located around the world, we design innovative programs that create capital value for our clients and help them manage risk exposures so they can achieve their long-term financial goals.

### Summer Internship Program

Guy Carpenter hires interns between their junior and senior years in college to take part in a structured program that provides technical and professional skills training, formal coaching, Learning Days with senior management and meaningful work assignments and projects. Through the program, we identify individuals who have the potential to be a part of the firm following graduation. An internship with Guy Carpenter is a great way to enhance your college learning and gain valuable work experience in a dynamic industry.

### Position Summary

Actuarial Analyst Interns work in teams with other actuaries, catastrophe modelers and broking professionals to assist in the delivery of actuarial and financial modeling services to our clients. Each Actuarial Analyst Intern has the opportunity to participate in developing cutting-edge analyses, strategies and solutions addressing the wide range of risk financing issues facing our clients. All Actuarial Analyst Interns deliver a final, end of summer presentation to peers, coaches and other colleagues.

### Types of day-to-day duties and responsibilities may include:

- Working with models that examine alternative forms of risk financing
- Assisting with the interpretation and analysis of client underwriting information
- Learning to use tools to price and evaluate reinsurance structures from an actuarial perspective
- Assisting in responding to client inquiries and concerns; resolving issues promptly

### What We Look For

We seek creative and well-rounded self-starters who have both the qualitative and quantitative aptitude to excel in a challenging and highly competitive environment. Actuarial sciences, mathematics or statistics majors are preferred.

### Required Qualifications

- Progress towards a BA/BS degree, with a minimum GPA of 3.0 GPA out of 4.0
- Superior analytical, research and problem-solving skills
- Mathematical / financial aptitude
- Strong computer application skills, specifically Excel and Access
- Ability to multi-task and work effectively in a fast-paced team environment.
- Keen attention to detail
- Strong oral and written communications skills

### Locations

Positions are available in offices across the United States, including New York, Minneapolis and Seattle.
