

Risk Analyst

Guy Carpenter & Company, LLC

Guy Carpenter provides highly-specialized risk financing solutions for clients across the globe. Through more than 2,600 professionals in offices located around the world, we design innovative programs that create capital value for our clients and help them manage risk exposures so they can achieve their long-term financial goals.

Position Summary

As a member of a client account team, the Risk Analyst works closely with senior brokers, line-of-business specialists, our InStrat® unit and dedicated client servicing professionals to analyze client data, evaluate needs and help create effective reinsurance solutions designed to meet clients' financial goals.

- Focus primarily on client account management, as part of broking operations
- Interact extensively with senior level clients, including CEOs and CFOs
- Assist with new business development
- Participate in **Guy Carpenter's Analyst Development Program**

Day-to-day responsibilities may include:

- Participating in the analysis of clients' existing reinsurance programs; recommending and transacting customized reinsurance solutions
- Assisting client teams in the preparation of presentation materials and proposals for both existing and prospective clients
- Writing documents for assigned accounts, highlighting business strategies, risks and objectives
- Analyzing and summarizing complex data and compiling reports
- Attending client and market meetings, with a high likelihood of non-local travel

What We Look For

We seek creative and well-rounded self-starters who have both the qualitative and quantitative aptitude to excel in a challenging and highly competitive environment. Students of all disciplines are strongly encouraged to apply.

Required Qualifications

- Must hold unrestricted right to work for an employer in the U.S. for an indefinite period of time
- Undergraduate degree with a minimum GPA of 3.0 out of 4.0
- Superior analytical, research and problem-solving skills
- Keen attention to detail
- Strong oral and written communications skills
- High level of proficiency with basic computer application skills
- Ability to multi-task and work effectively in a fast-paced team environment.
