Guy Carpenter Wins “Reinsurance Broking Team of the Year” At *The Review* Worldwide Reinsurance Awards 2008

New York, September 4, 2008

Guy Carpenter & Company, LLC, the leading global risk and reinsurance specialist, announced today that it has won the “Reinsurance Broking Team of the Year” award at *The Review* Worldwide Reinsurance Awards 2008. The award, in recognition of the extension of Guy Carpenter’s i-aXs® risk management platform to workers compensation and life, accident and health business lines, was presented yesterday at The Dorchester Hotel in London.

“Since the introduction of the i-aXs platform in 2006, we have worked diligently to build on its groundbreaking features, adding new capabilities and expanding its functionality across key lines of business,” said Peter Zaffino, President and CEO, Guy Carpenter. “With more than 2,000 i-aXs users now performing vital risk management functions on a day-to-day basis, the online platform has been a resounding success. We thank *The Review* for this outstanding recognition and congratulate our entire global i-aXs team.”

i-aXs is a web-based platform that gives clients the power to quickly convert vast amounts of data into clear, concise information and make faster, better-informed risk management decisions. i-aXs allows insurers to answer questions related to incident- or location-specific “people risks,” and to better manage these risks – both those that they are considering underwriting and those currently in their portfolios.

The judging panel noted that “the creation of i-aXs is another example of Guy Carpenter’s ability to respond imaginatively and creatively to clients’ needs.” The judging panel also commented, “Being able to easily transform data in real time into information and insights that help them manage a portfolio more profitably can only aid today’s underwriter.”

Greg Dobie, editor of *The Review*, added, “The judging panel was particularly impressed by the fact that i-aXs allows insurers to view, analyze, and graph results from numerous analyses performed on their data in seconds – right from their desktops. i-aXs revolutionizes the industry’s ability to use data, and for that its development team deserves great credit.”

Guy Carpenter’s Accident & Health team was named “Reinsurance Broking Team of the Year” in 2007.
