同意

In order to facilitate the provision of (re)insurance related services and to administer (re)insurance claims, unless another legal ground applies, we rely on the data subjects' consent to process Personal Information. We will seek and obtain separate consent from data subjects, which is required for certain types of processing activities under the PIPL, e.g., processing sensitive Personal Information, transferring Personal Information abroad, and sharing Personal Information with other insurers, intermediaries and (re)insurers that need to process the information in order to undertake their role in the (re)insurance market and that may use the information for the pooling and pricing of risk in a sustainable manner.

The affected individual's consent may be necessary for Guy Carpenter to be able to provide the services a client requests. Where you are providing us with information about a person other than yourself, you agree to notify them of our use of their Personal Information and to obtain such consent for us.

Profiling

建模

Guy Carpenter and other (re)insurance market participants analyse and compile information received from (re)insureds, beneficiaries or claimants to model the propensities for (re)insured events to occur. Guy Carpenter uses this to help calculate (re)insurance premiums, which feed into the cost of (re)insurance premiums across the (re)insurance market. It also uses the output of this exercise to assist in its risk consultancy activities. Accordingly, Guy Carpenter may use Personal Information to both match against the information in existing models and to create new models to assist in determining the premium pricing in general and for other (re)insureds. Guy Carpenter and other (re)insurance market participants may use sensitive Personal Information and Criminal Records Data for such modelling to the extent it is relevant, such as medical history for “life and injury” lines.

佳达及其他（再）保险市场参与者分析并汇编从被（再）保险人、受益人或索赔人收到的信息，以建立（再）保险事故发生倾向的模型。佳达借此来帮助计算（再）保险费，该等费用将计入整个（再）保险市场的（再）保险费成本。佳达还使用该方法的结果来协助其风险咨询活动。相应地，佳达既会使用个人信息来与现有模型中的信息进行匹配，也会用其创建新的模型，以协助一般性地及为其他（再）被保险人确定保费定价。佳达和其他（再）保险市场参与者可能使用有关的敏感个人信息和犯罪记录数据进行该等建模，例如为“生命和伤害”业务使用医疗记录信息。

Guy Carpenter and other (re)insurance market participants use similar predictive techniques to assess information that clients and individuals provide to understand fraud patterns and the probability of future losses actually occurring in claims scenarios.

佳达和其他（再）保险市场参与者使用类似的预测技术来评估客户和个人提供的信息，以了解欺诈模式和未来损失在索赔场景中实际发生的概率。

We use these models only for the purposes listed in this Privacy Notice, and, in most cases, our staff make decisions based on the models.

我们仅将这些模型用于本隐私通知中列出的目的，并且，在大多数情况下，我们的员工基于这些模型做出决定。
